

Walters State Dual Enrollment Information

What is Dual Enrollment?

Dual Enrollment offers qualified high school students the opportunity to receive college credit at a relatively low cost while they complete their secondary education.

It is designed to supplement and enrich students' high school experiences by providing access to collegiate education without interrupting their normal high school activities. Earned credits transfer to two-year and four-year accredited institutions from Walters State according to the discretion of the receiving institution.

The Dual Enrollment Program is a state-approved, cooperative community venture provided by Walters State Community College. The program has been successfully implemented in 11 school systems within the Walters State service area.

What is the requirement to be enrolled in a WSCC Dual Enrollment Course?

Admission to the Dual Enrollment Program is available only to junior and senior students that have a 3.0 or higher high school GPA.

When can a student sign-up for Dual Enrollment through Walters State?

Dual Enrollment Registration for Fall classes will open in March/April. Spring registration will open in October/November. Once registration opens, counselors will assist students in completing registration, as specific course numbers and section numbers are required.

Is there a cost for Dual Enrollment courses?

The Dual Enrollment Grant can offset the cost of a dual enrollment course. Please contact your school counselor for more information.
